

Katzkin gives you the freedom of choice AND the resources of a professional design studio

Our online Interior Design Selector offers a wide selection of styles from our in-house team

Our designers have created many exciting choices from the mild elegance of a single tone to the wild extravagance of a 2-tone with piping & perf. And everything else in between. Each one is designed to match the unique style of your vehicle.

OR

You can try designing your own using our most popular colors and interior options.

WINGS

Any set of panels that deviates from the configurations shown above. Wings may be, but are not limited to, the examples shown here. Wings are not available on all vehicle interiors, only select patterns.

PERFORATION

Wherever you drive, Katzkin has the materials to get you there.

katzkin
AUTOMOTIVE LEATHER

Katzkin **Premium** leather is available in 65 colors and is formulated not only to meet but, in most cases, exceed the specifications of leather offered from the factory.

TUSCANY
FINE AUTOMOTIVE LEATHER
by **katzkin**

Tuscany turns luxury into decadence. This is our softest leather ever, and despite its rich, supple finish, Tuscany still meets the highest standards of automotive durability.

katzkin
OUR TOUGHEST EVER **XT**

Katzkin XT is our toughest ever. Twice as durable, and thicker than our Premium leather and vinyl, **XT** is water resistant, mildew resistant, even kid resistant.

Barracuda
SQUARE PERFORATED DUO-TONE LEATHER

When you just want a hint of color, let a little peek through the square perforation of **Barracuda** from the specially-dyed underside of our Premium leather.

OUTLAW
TOOLED LEATHER by **katzkin**

Put the Old West in your New Ride with **Outlaw**. The look of tooled leather - in a variety of colors - adds that vintage touch of the Western frontier.

SuedeZkin

Soft and sporty **SuedeZkin** is the perfect accent material on any Katzkin pattern. It keeps you snug in your seat, staying warm in the winter and cool in the summer.

auto
Exotics

AutoExotics is a collection of synthetics like Carbon Fiber, or Realtree® camouflage, as well as cowhide embossed with crocodile. Use a little or a lot to feed your wild side.
